# Your County Connection

## Explore, Enrich, Enjoy This Season of Life

*This edition is also available at [www.wccoa.net](http://www.wccoa.net)*

The Wood County Committee on Aging, Inc. mourns the loss of our Executive Director, Denise Niese. A true advocate for the older adults of Wood County, Denise has fought tirelessly so that those without a voice can be heard. Her trailblazing spirit coupled with her sincere smile made the needs of those around her a top priority.

While this is a difficult time for so many of us, it should be noted that there will be **NO** interruption to services, all sites will remain open, and a hot nutritious meal will continue to be served throughout the county both at our sites and through our home delivered meal program.

The WCCOA Governing Board is moving with the process of finding a permanent Executive Director. The process will ensure that the next Executive Director will be someone that is willing to continue the legacy that Denise has built.

Finally, it should be noted that a **Celebration of life** for **Denise Niese** will be held on **Saturday, January 11**. Stop by anytime between **1 and 6 p.m. (2 to 3 p.m. will be presentation)** at the Wood County Senior

Center to enjoy light refreshments and to honor her legacy!

## Better Health Better You

### Diabetes Self-Management Program (DSMP) Workshop

Tuesdays, January 21 to February 25 from 1 to 3:30 p.m.

**Wood County Senior Center Cost: \$20 includes text book & relaxation CD**

*Facilitated by Kinsey Mazey and Danielle Brogley, WCCOA*

The Diabetes Self-Management Program (DSMP) is a 6-week group program for people with type 2 diabetes. DSMES provides an evidence-based foundation to help people with diabetes navigate their condition. This includes daily self-management decisions to manage blood sugar, improve overall health, and prevent or delay diabetes complications.

People who participate in DSMP have been shown to have better diabetes-related outcomes than those who do not. In spite of this, use of DSMP is low. Less than 5% of Medicare beneficiaries and 6.8% of privately insured people with diabetes have used DSMP within the first year of diagnosis.

The program was developed by Stanford University to help you manage your diabetes symptoms, tiredness, pain, and emotional issues, by helping you learn skills to better manage your diabetes day to day.

**Register TODAY! Class size is limited to 15 people.** Call 419.353.5661 or 800.367.4935 or email [programs@wccoa.net](mailto:programs@wccoa.net) CDSM is developed at Stanford University and licensed by the Self-Management Resource Center.

**Presenter: Dr. Stefan Fritsch**

Under President Biden, the U.S. has advanced new ideas about trade, technology, industrial policy, competition with China, and the organization of the world economy. For most of the postwar era, the U.S. has tied its global leadership to cooperative agendas aimed at creating a more open world trad-

ing system, but that has apparently come to an end. What are America's options and opportunities as a leader of the world economy? How will America's "foreign policy for the middle class" and strategic competition with China impact its leadership role? How can the postwar rules and institutions of the world economy be made safe for economic nationalism and great power competition?

**February 1, 2025: The future of NATO and European Security Presenter: Dr. Doug Forsyth**

European security is more uncertain than it has been for decades. Putin's Russia has launched a war with Ukraine on its doorstep, and America's uncertain role as leader of NATO and security provider has been called into question with the failure of Congress to pass supplemental military support for Ukraine. What are Europe's options and how might developments on both sides of Western Europe – in Ukraine and across the Atlantic – impact its choices? What are America's stakes in NATO and Europe's strategic dilemmas?

**February 8, 2025: AI and American National Security Presenter: Dr. Stefan Fritsch**

The AI revolution is the leading edge of a larger high-tech revolution that promises to transform the world. Experts argue that international cooperation is needed to expand the opportunities that these new technologies hold while protecting societies from their dangers. What are the key policy debates in this area, and what are the opportunities and limits on global AI rules of the road? How will the AI revolution impact American national security? What are its policy options to secure the benefits of AI and guide against its dangers?

**February 15, 2025: After Gaza: American policy in the Middle East Presenter: TBA**

The war in Gaza has brought the region to a crossroads. What are the possible outcomes of the war, and how might the United States use its influence to shape a long-term settlement that leaves both Israel and the Palestinians in a better position? How might Arab states in the wider region be brought into a settlement? What are America's interests in the Middle East and how can it advance them?

**February 22, 2025 India: between China, the West, and the Global South Presenter: Dr. Vibha Bhalla**

India is an emerging major power in world affairs, occupying a pivotal position between China, the United States, and the Global South. Its population size, economy, and geopolitical location ensure that it will be an influential voice in debates and political struggles over global order. What are India's choices and opportunities for regional and global leadership? How will it maneuver between China and the United States, and what is its role as a voice of the Global South? What opportunities exist for Washington to work with India?

**March 1, 2025: International cooperation on climate change Presenter: : Dr. Amilcar E Challu**

The 2015 Paris Agreement established a UN-sponsored framework for negotiations on climate change and global warming. In subsequent COP meetings, experts and political leaders have come together seeking common cause of this growing global crisis. What is the future of these efforts, and what has it yielded? What is the U.S. role in fostering cooperation on climate change? In a divided country, what is the range of possible futures for American policy leadership?

## Experience the Healing of Sound: What is a Sound Bath?

**Tuesday, January 21 from 3 p.m. to 4 p.m.**

Though a sound bath may seem like a “new age” concept, the practice of healing bodies through sound is technically thousands of years old with deep roots in cultures across the world. A sound bath is a meditative experience where those in attendance are “bathed” in sound waves. These waves are produced by various sources, including healing instruments such as gongs, singing bowls, percussion, chimes, rattles, tuning forks, and even the human voice itself. Many people are using this technique for stress reduction, relaxation and lifestyle management. You may bring a yoga mat, blanket and/or pillow. We will meet monthly for this class.

**Cost: \$10 Space is limited and chairs are available.** Facilitated by Kim Post, RN.

**Registration through the Program Department.**

## Newsletter Subscriptions

If you receive your newsletter in the mail, you will see a date printed at the bottom of your address label above. This date tells you when your newsletter subscription expires. At that time, you will stop receiving the newsletter by mail. You may re-subscribe by stopping by the nearest WCCOA Senior Center (locations listed below). You will be asked to fill out a purple form and pay the subscription fee. Subscriptions for the newsletter are renewed on an annual basis and cost \$5 for Wood County residents and \$12 for those who live outside of Wood County. *Free access to the newsletter is also available by email and on the WCCOA website.*
